[Why the topic of the conference 2022 is "The era of library transformations and the new ecology of life"?](#)

The International Organizing Committee, despite the continuation of the war between Ukraine and Russia as an aggressor state, has made a decision to hold the conference in an online format (but the situation may change for the better, and we will return to the hybrid format!). The library and information community shall protect the rights to the highest human values throughout the world, democratic rights, value the diversity of cultures, support national education and science.

**Conference Directions:**

**Section 1.** Strategic partnership.

**Section 2.** Management and marketing of libraries of higher educational institutions.

**Section 3.** Library Stock: traditional and electronic resources; acquisition; scientific processing; using; digitization and digital stock preservation.

**Section 4.** Library services in support of science and education:

- Open knowledge policies and practices: Open Science, Open Education, Open Access, Open Data;
- Digital Library Publishing;
- Evaluation of scientific resources: bibliometrics, scientometrics, new and emerging metrics;
- Libraries on Social Media: Finding the Students, Scientists, and the Information They Want

**Section 5.** Change of roles: from information providers to educators.

**Section 6.** The contribution of theory and research to library transformation.
